

Name – Surname:

Class:

Number:

1) Read Emily's blog post and answer the questions. (K.E7.6.R1) (6x2=12pts)

Last month, I organized a birthday party for my best friend. First, I prepared a guest list. Second, I sent invitation messages to everyone and told them the time and place of the party. Next, I went shopping and bought some balloons, banners, and colorful lights for the decorations. Then, I prepared food and drinks for the guests. I made sandwiches and lemonade for everyone. After that, I ordered a big birthday cake with chocolate and strawberries. Finally, the guests arrived, and we welcomed them warmly. We played games, listened to music, ate delicious food, and enjoyed the party together. It was a fantastic celebration and we had unforgettable memories!

1) What kind of party did Emily organize?

4) What decorations did Emily buy?

2) Who was the party for?

5) What food and drinks did Emily prepare?

3) What did Emily do first?

6) What did the guests do at the party?

2) Look at the situations and write sentences with reasons. (K.E7.8.W1) (6x4=24pts)

Example: 🍬 I have a headache. ➡ I should go to the pharmacy to buy medicine.

📖 I want to borrow a book.

💰 I need some money.

✉️ I want to send a letter.

🤒 I feel very sick.

🍞 We need some bread and milk.

🚒 There is a fire in the building.

3) Read the dialogue and answer the questions. (K.E7.9.R1) (6x3=18pts)

Lisa: Hi, Tom! Did you watch the documentary about environmental problems yesterday?

Tom: Yes, I did. There are many environmental problems in the world.

Lisa: I agree. Air pollution is a big problem. Cars and factories pollute the air.

Tom: Water pollution is dangerous, too. People throw rubbish into rivers and seas.

Lisa: Yeah, that's true. Also, many animals also lose their homes because of deforestation.

Tom: People should plant more trees and recycle paper, plastic, and glass.

Lisa: I think people should use public transportation or ride bikes.

Tom: Yes, and we should save electricity and water, too.

Lisa: If people work together, we can protect the environment.

Tom: That's right! Small actions can make a big difference.

1) What do Lisa and Tom talk about?

2) What pollutes the air?

3) Why do rivers and seas become polluted?

4) Why do many animals lose their habitats?

5) What should people use instead of cars?

6) What should people do to protect the environment?

Not: Cebrail Hocam YouTube kanalında çözümleri vardır. Lütfen sadece okul için kullanınız. Sosyal medyada paylaşmayınız.

4) Read Leo's poster about his city and rewrite the sentences by correcting the mistakes according to the text. (K.E7.8.R1) (8x2=16pts)

My Neighbourhood

I live in a busy neighbourhood near the city square. I think it is an exciting place to live.

There is a fantastic bookshop in my neighbourhood, and I go there to buy adventure novels.

I also enjoy spending time with my cousins at the shopping mall on weekends.

I love sports, so I often go to the sports centre to play basketball.

I really like animals, so I sometimes visit the zoo with my family.

I usually go to the museum because I am interested in history.

I sometimes go to the amusement park to have fun with my friends.

I also go to the greengrocer's to buy fresh fruit and vegetables.

Finally, I sometimes go to the post office to send letters to my grandparents.

Leo lives in a quiet village near the mountains. *He lives in a busy neighbourhood near the city square.*

Leo goes to the library to buy adventure novels.

Leo spends time with friends at the cinema at weekends.

Leo goes to the sports centre to play tennis.

Leo visits the zoo with cousins.

Leo goes to the museum because he is interested in science.

Leo goes to the amusement park to study with friends.

Leo buys clothes at the greengrocer's.

Leo goes to the bank to send letters to grandparents.

5) Look at the pictures and write sentences about protecting the environment using 'should, shouldn't, must, mustn't or have to.' (K.E7.9.W1) (5x4=20pts)

6) Read the texts and write the names of the planets in the blanks. (K.E7.9.W1) (6x2=12pts)

 Mercury Mercury is the closest planet to the Sun. It is very hot during the day and very cold at night. It has no moons.	 Venus Venus is the hottest planet in the Solar System. It has thick clouds and a toxic atmosphere.	 Earth Earth is the only planet with life. 71% of Earth is covered with water. It has one moon.	 Mars Mars is called the "Red Planet." Scientists think there was water on it in the past. It has two small moons.	 Jupiter Jupiter is the biggest planet in the Solar System. It has more than 90 moons.	 Saturn Saturn is famous for its beautiful rings. It is the second-largest planet. It is a gas giant.
