

İkişer Çarpım Tablosu

Tabloyu örnekteki gibi dolduralım.

$$1 \times 2 = 2$$

1 kere 2, 2 eder.

$$2 \times 2 = 4$$

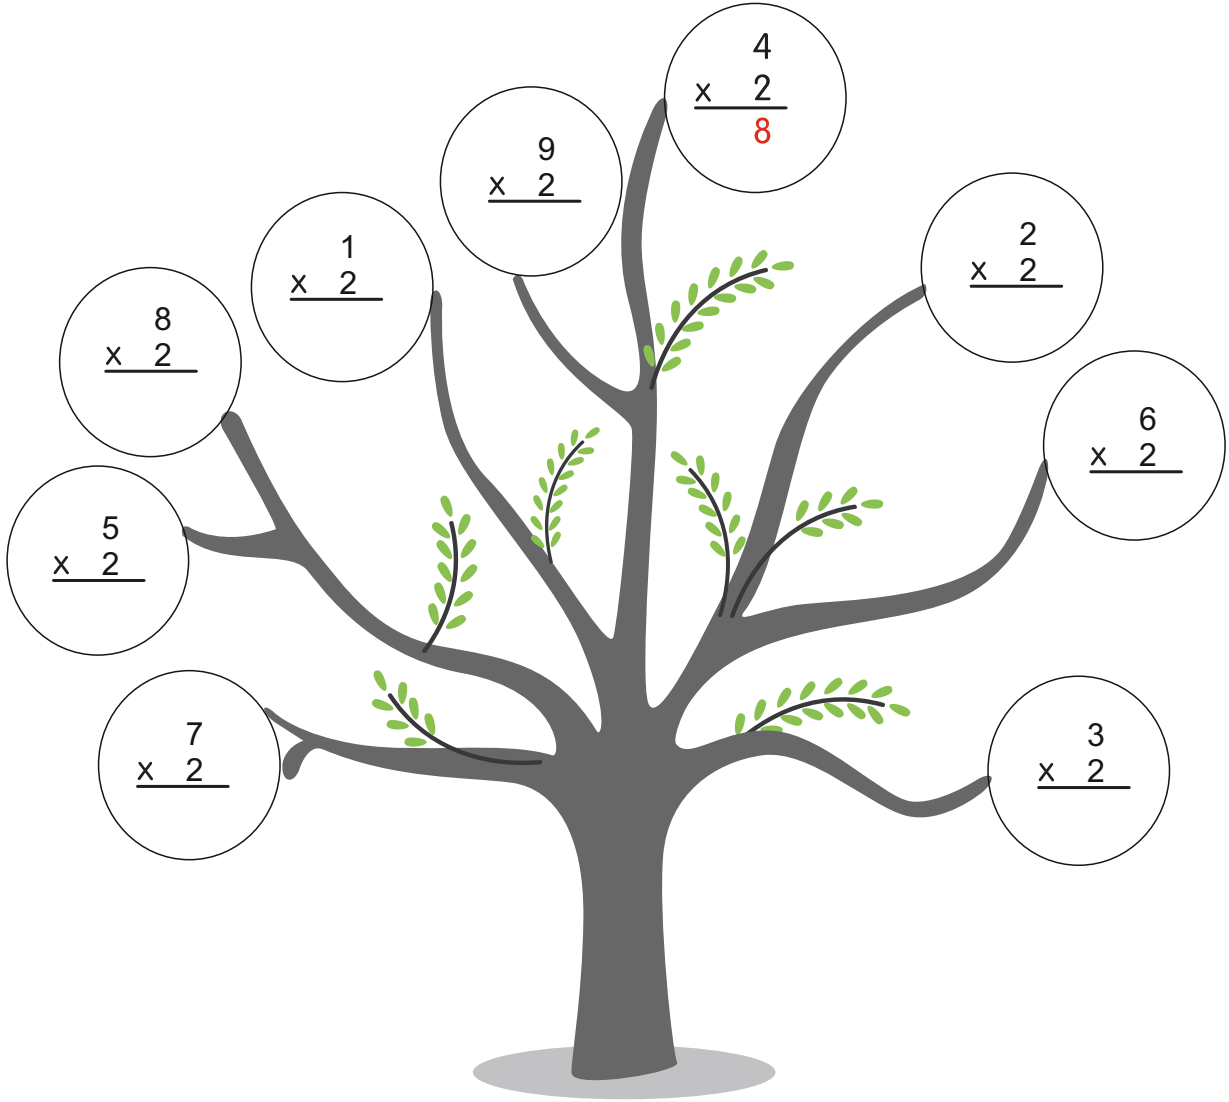

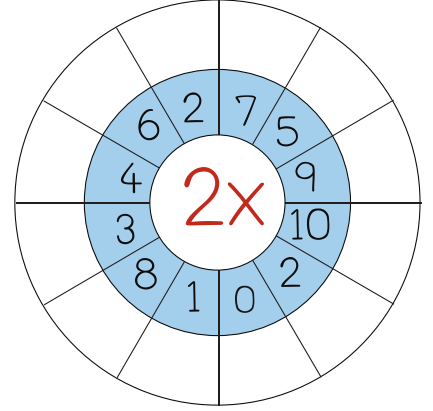

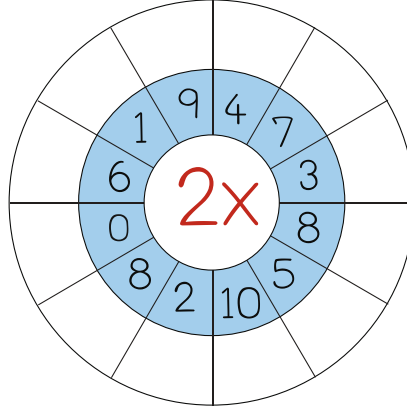

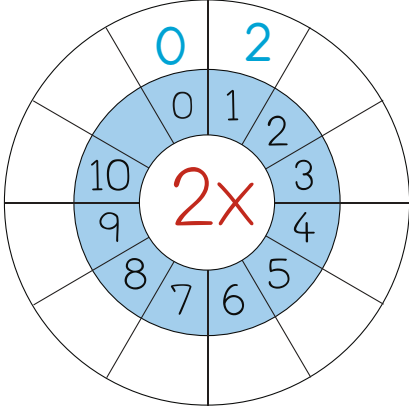

2 kere 2, 4 eder.

$$\begin{array}{ccccccc} 4 & \times & 2 & = & 8 \\ \downarrow & & \downarrow & & \downarrow \\ \text{Çarpan} & & \text{Çarpan} & & \text{Çarpım} \\ & & \downarrow & & \\ & & \text{Çarpma sembolü} & & \end{array}$$

$$\begin{array}{r} 4 \rightarrow \text{Çarpan} \\ \times 2 \rightarrow \text{Çarpan} \\ \hline 8 \rightarrow \text{Çarpım} \end{array}$$

Aşağıdaki işlemleri örneklerdeki gibi yapın.

$1 \times 2 = 2$

$2 \times 2 = \dots$

$5 \times 2 = \dots$

$7 \times 2 = \dots$

$9 \times 2 = \dots$

$3 \times 2 = \dots$

$6 \times 2 = \dots$

$10 \times 2 = \dots$

$4 \times 2 = \dots$

$8 \times 2 = \dots$

$5 \times 2 = \dots$

$8 \times 2 = \dots$

$9 \times 2 = \dots$

$2 \times 2 = \dots$

$0 \times 2 = \dots$

İşlemlerin sonucunu aşağıdaki kutularla eşleştirin.

2 tane 2 8 tane 2 1 tane 2 9 tane 2
4 tane 2 3 tane 2 5 tane 2 10 tane 2
7 tane 2 6 tane 2

10 4 16 20 12 18 14 8 2 6

Aşağıdaki çarpım tablosunu doldurun.

X	1	2	3	4	5	6	7	8	9	10
1			3							
2				8						

Aşağıdaki işlemleri örnekteki gibi yapın.
