### A Read the text about Istanbul and answer the questions. (20 pts.)

Have you ever been to Istanbul before? I have been to this miraculous city twice before. Istanbul is a fascinating city with its hospitable and humorous local people. As you walk down the streets, you will explore the history beneath your feet and around you. Watch the sunset over the world's most beautiful horizon. The diversity of the local food here is as rich as its cultural and historical background. After all, it's the only city where the two continents meet. Enjoy the delicious kebab or lahmacun together with ayran in so many local restaurants. Nothing compares to drinking a glass of fresh tea against the Maiden's Tower, which is right in the middle of the Bosphorus.

Istanbul's strategic location has attracted many civilizations for centuries. In turn, the Greeks, Romans and Venetians ruled this place for many years before the Ottomans arrived and settled here. The Byzantines adorned the city with their artistic and architectural skills. The perfectly preserved examples of them make Istanbul a monumental city. You'll feel this when you simply look around. Once you have visited Istanbul, you'll never want to leave it but live it.
